

# Get Away With It

## Animal Kingdom

Any place, any time  
You could be mine  
Any night, any day  
Anything we say (Anything we say)

You can get away with that  
I can get away with this  
We can just get away

You can get away with that  
I can get away with this  
If they all look away

Any place, any time  
Anything we like  
Any ties, any collars  
Anything we want (anything we want)

You can get away with that  
I can get away with this  
We can just get away

You can get away with that  
I can get away with this  
If they all look away (only if they look away)

So letâ€™s look at this handout  
not at this one  
So letâ€™s look at this handout  
not of what weâ€™ve done  
So letâ€™s look at this handout  
not at this one  
so letâ€™s look at this handout  
not of this world

You can get away with that  
I can get away with this  
We can just get away

You can get away with that  
I can get away with this  
If they all look away (only if they look away)

You can get away with that  
I can get away with this  
We can just get away (only if they look away)

You can get away with that  
I can get away with this  
If they all look away (only if they look away)
