Verse 1:

They said I'm nothing but I laughed and told them keep talkin  
No when they see me they hang their heads and keep walking  
Does it hurt to see me shine, I'm getting radio and tv time  
I rig them dossie doe, jumpin, screamin, yagga o  
Some sittin prating like they enemies  
To think for once that they were friend a we  
When they see you rolling through the street they try to act cool  
But player hate cause I will never, ever doubt you  
[Chorus:] Many thought that I would fall, now I got it all  
They thought that I will fail, That I'd just end up in jail  
Look at me now (5x)  
Look at me now now now

Verse 2:

They say that we won't last, We came up where to fast  
We getting bigger and better with every day that past  
Look at me now, us, ain't none of them can know me though.  
We comin from the high to the west and east  
And know every where else is down, down, down down.

Mama told my spread your wings my son and fly  
And though it might ge rough you are your mothers child  
They said your nothing but son just tell them keep talking  
So when they see you they'll hang their head and keep walking

[Repeat Chorus:] Verse 3:

So if you want to make a feeling  
Or put your one's up to the ceiling  
Cause we don't know how to lose, no way  
So please just listen to the words that we sayin  
Just imagine that it was coming up  
You try to come in but you can get a walk  
Nobody can really hear your stuff  
Cause the dj isn't really play your cut  
On top of that everybody hates you gutts  
All because (?)

I blowin up bigger than an African Bus  
But don't hate me cause you ain't do it like us  
I know I good so why is shit so cruel  
I give my best cause I got shit to lose  
No it's my time, take your props but give me mine.  
Until the day I'm here to rest, every day I'm show up with the pvi.  
[Repeat Chorus: 2x]
