Love & Faith & Inspiration

Lindsay Pagano

Love&Faith&Inspiration
Language without conversation
There's no better God creation
Planet Earth is our vacation
Love&Faith&Inspiration
(say it again)
Love&Faith&Inspiration
Language without conversation
There's no better God creation
Planet Earth is our vacation
Love&Faith&Inspiration
Now the rain is falling hard
Standing in my own backyard
Dreaming of a kiss
Do we have to be enemies like this?
Love&Faith&Inspiration
Sing a song of meditation
If you're feeling desperation
There's just one medication
Love&Faith&Inspiration
Love&Faith&Inspiration
Baby it's our destination
Fill the world with education
It's a soul stimulation
Love&Faith&Inspiration

Life is a story
Gentle as the wind
Listen while I tell it
Love is where is begins
Love&Faith&Inspiration
Love&Faith&Inspiration
Language without conversation
There's no better God creation
Inspiration (say it again)
Love&Faith&Inspiration
Language without conversation baby
There's no better God creation
Planet Earth is our vacation, oh

Love&Faith&Inspiration
Do you know the implication
When you use your heart for navigation
Make a simple...
Do you know the implication
When you use your heart for navigation
(Do ya do ya do ya do ya?)
Do you know the implication
When you use your heart for navigation
Make a simple dedication, what a perfect combination
