

# Full Moon Crazy

## Honor Society

Yeahh  
I don't know  
What you thought this was gonna be  
You're standing there  
You're looking good  
But I don't wanna see ya  
Oh-oh-o

But as youre moving in closer  
I head for the door  
But you're standing if front of the handle  
I can't handle the way  
That you're smothering me  
I don't wanna see ya  
Oh-oh-o

You're up, you're down,  
You smile, you frown,  
You're unpredictable  
You bring me too much stress baby  
So put yourself in check  
Ha

I don't need no drama in my life  
You're not that special anyway  
In fact you're gettin much colder  
Acting bipolar  
You're ruining my day  
I don't need no drama in my life  
I've had enough of you  
All the things you put me through  
Cuz you're flaky, you're shakey,  
Need someone to save you  
Girl, you're full moon crazy

Got to my car  
Dropped my keys  
You're chasing after me  
Then she said, burning red  
You'll be sorry

Oh-oh-o  
You throw my keys at me  
And I can't believe that  
You had such a crazy reaction  
Unattracted  
The way that you acted  
Now I gotta leave  
Oh-oh-o

You're rough, you yell  
All the lies that you tell  
You got me on my knees  
You're wandering in the streets  
And Im begging you to leave baby

I don't need no drama in my life  
You're not that special anyway  
In fact you're gettin much colder  
Acting bipolar  
You're ruining my day  
I don't need no drama in my life  
I've had enough of you  
All things you put me through  
Cuz you're flaky, you're shaky,  
Need someone to save you  
Girl, you're full moon crazy

Remember when we met  
When everything was perfect  
What happened to that girl?  
If she ever comes back  
My heart is always open  
The moon's in position  
So make your decision

I don't need no drama in my life  
You're not that special anyway  
In fact you're getting much colder  
Acting bipolar  
You're ruining my day  
You've got to get over your pride  
You're not that special anyway  
In fact you're getting much colder  
Acting bipolar

You're ruining my day

I don't need no drama in my life  
I've had enough of you  
All the things you put me through  
Cuz you're flaky, you're shaky,  
Need someone to save you  
You're full moon crazy  
You're full moon crazy, baby  
I said you're full moon crazy  
You're full moon crazy, yeah
