

# 10 Miles Wide

## Escape the Fate

Whoa, yeah You say you're getting closer to that chance of suicide  
Tearing at your throat, you won't let it die  
Left me here for all these days  
And ripped apart my pride Take my place and look inside  
I'm trying to find a place to hide, hide  
Lost my faith but don't you cry  
I got a hole inside and it is 10 miles wide, yeah, alright Living on the coast cocktails and telling lies  
Gotta fucking crush coming to life  
You left me here for all these days  
And ripped apart my pride Take my place and look inside  
I'm trying to find a place to hide, hide  
Lost my faith but don't you cry  
I got a hole inside and it is 10 miles wide It's not to late, I'm close behind  
I've gotta get inside your mind, mind  
Lost my faith but don't you cry  
I got a hole inside and it is 10 miles wide Take me on, I'm feeling in the mood for something dangerous  
I've found myself again  
Take me on, I'm feeling in the mood for something dangerous  
I've found myself again Take my place and look inside  
I'm trying to find a place to hide, hide  
Lost my faith but don't you cry  
I got a hole inside and it is 10 miles wide Well, I lost myself and looked inside  
It branded me for life  
I can't help myself, it's mine to hide  
I got a hole inside, it's feeling 10 miles  
It's feeling 10 miles, it's feeling ten miles wide 10 miles wide  
10 miles wide  
10 miles wide
