

# Come And Get It

## I Prevail

Every single time I turn around, my name is in your mouth  
Soon you'll see, you can say what you want, you'll never be me  
I'll just bite my tongue, and leave your mouth to run  
Soon you'll see, if you want it come get it you know where I'll be  
If you want it come get it you know where I'll be  
If you want it come get it you know where I'll be  
Look at you now  
Another face in the crowd  
I am, I am the headline  
Look in my eyes  
And read between the lines  
I am, I am the headline  
I am, I am, I am the headline  
I am, I am, I am the headline  
Deep down I love it when you hate me  
Keep it up, it's funny that you can't see  
This is everything you wanted to be  
So give up, give up, feed your hate to me  
I'll just bite my tongue and leave your mouth to run  
This is everything you wanted to be  
So give up, give up, feed your hate to me  
Say what you want, you can say what you want  
You can say what you want, you'll never be me  
Look at you now  
Another face in the crowd  
I am, I am the headline  
Look in my eyes  
And read between the lines  
I am, I am the headline  
Take a look around, tell me what you see  
The wolves are out  
It's about to get rowdy  
GO  
Welcome to our stomping grounds  
Where the kids throw down and the shit gets loud  
This is an invitation to get the fuck out if you can't take it  
Look at you now  
Another face in the crowd  
I am, I am the headline  
Look in my eyes  
And read between the lines  
I am, I am the headline  
I am, I am, I am the headline

I am, I am, I am the headline
