

# Dash 7

## Wilco

Dash 7 in the air  
Dropped to the sun alone  
Jets hum I wish that I was still there  
Props not a jet, alone  
Where the sun doesn't come down Because I've found the way those engines sound  
Will make ya kiss the ground  
When you touch down Dash 7 pointed down  
The captain's announcement  
Doesn't make a sound Because I've found the way those engines sound  
Will make ya kiss the ground  
I found the way those engines sound  
Will make ya kiss the ground  
When you touch down
