After Shock

Ananda Shake

Verse 1:
Beats so heavy make my head get hazy
Big boots make the ground shake crazy
Body so hot feel like they tase me
Kill the light watch the crowd get shady
Girls getting tricky move round like elastic
Boys turned on you can see all the static
Charge it up make it automatic
Stop the press hear the kick go manic
Pre-chorus:
I feel you move closer to me
All the signals peaking
Crank up my electricity
Till I overload
Chorus:
Lovestruck
My heart is overheating and it won't stop
I try to slow the beating but you're so hot
The tremors keep repeating and I tell myself keep breathing
But I'm caught in your after shock
Hit me like an earthquake
Feel my heaven and earth shake
Lovestruck
The tremors keep repeating and I tell myself keep breathing
But I'm caught in your after shock
Verse 2:
Bass so thick you can see the sound waves
Bubbly spilling like it's your birthday
And come blasting now make the ground sway
Put your hands up
Shout on the replay

Pre-chorus:
I feel you move closer to me
All the signals peaking
Crank up my electricity
Till I overload
Chorus:
Lovestruck

My heart is overheating and it won't stop
I try to slow the beating but you're so hot
The tremors keep repeating and I tell myself keep breathing
But I'm caught in your after shock
Hit me like an earthquake
Feel my heaven and earth shake
Lovestruck
The tremors keep repeating and I tell myself keep breathing
But I'm caught in your after shock
Bridge:
Your lips conduct electric flow
Your kiss vibrates me head to toe
Your touch is glowing in the dark
Those neon eyes send me a blaze
Chorus:
Lovestruck
My heart is overheating and it won't stop
I try to slow the beating but you're so hot
The tremors keep repeating and I tell myself keep breathing
But I'm caught in your after shock
Hit me like an earthquake
Feel my heaven and earth shake
Lovestruck
The tremors keep repeating and I tell myself keep breathing
But I'm caught in your after shock
