For the Rest of Us

Lorene Drive

It seems like everybody knows
You're running in circles again
I fell into your perfect smile
No one should know about thisYou keep your smile
And Ill keep this to myselfYoure a wonderful thing and thats obvious
But dont light that cigarette again
Youre a wonderful thing and thats obvious
You dont need a second opinion about anythingIt seems like everybody knows
That you're not going to be around this time next year
Front line demanding activity
Cash flow slows and now they need your dreamYou're giving me a heart attack
But I will keep this to ourselvesYoure a wonderful thing and thats obvious
But dont light that cigarette again
Youre a wonderful thing and thats obvious
You dont need a second opinion about anything or anyone at allSo what was learned from this lesson
As I walked right through the room
So what was learned from this lesson
As I walked right through the room to youSo what was learned from this lesson
As I walked right through the room to youObviousYoure a wonderful thing and thats obvious
But dont light that cigarette again
Youre a wonderful thing and thats obvious
You dont need a second opinion about anything or anyone at allYoure a wonderful thing and thats obvious
But dont light that cigarette
