

Black Poison Blood

Kill Hannah

Advisory - the following lyrics contain explicit language:

It looked like the perfect day
In photos we were smiling
But something was wrong in here, oh Inside we were suffering
Lungs were barely moving
I wanted to comfort you, oh no So I said shh Oh, you'll fix all my cracked broken bones
And replace all my black poison blood She murdered me with her smile
Strangled me with her eyes
I'm poisoned as she passes by, oh The buildings around me shake
Like cheap, plastic wedding cakes
I fell to the ground with you, oh no And you said shh Oh, you'll fix all my cracked broken bones
And replace all my black poison blood
Black poison blood
