

Best of My Love

Funk

Oh baby you should never have to wonder (never wonder)
If I really love you cus I always show ya
I buy you flowers and I even make you dinner
I give you all my time
You don't ever have to question yeah
You got the best of my love
You got the best of my love
You got the best of my love
You got the best of my love
Although I know sometimes we fuss and fight yeah
Baby it really hurts me bad to see you cry, sugar
Baby girl just take my hand

I promise to be a better man
And I vow to give you everything you need oh babe
I'm the man, babe
I give you the sun and the moon and the stars
Whatever you want babe
You know I'll take good care of you
Whatever you need babyy
You can call on me
Your provider, your supplier,
Its my desire to take you higher
You got the best of my love
You got the best of my love
You got the best of my love
You got the best of my love
