

Little Sundance #2

Townes Van Zandt

When I'm with you, babe, I just can't be lonely
When I'm away, babe, I think of you only
What can I do, babe to get back to you, babe
I do anything that you say The night she is a sapphire, full of blue desire
Follow her love fire higher and higher
What can I do, babe, to stay here with you babe
At least till the east turn to grey Just you and me, girl, the stars and the real world
Spinning the minutes away The darkness is passing, she's never long lasting
But my love ain't leaving through hurtin' or pleasin'
I am tellin' you true, babe, ask me to do, babe
I'll trade all my treasures for you
