

Done Is Done

Millencolin

You don't know what you're looking for
You're lost in the past
You don't know who you are any more
How long will it last?
Well, it will last as long as you're gone
In the future or past
There's a crusher ahead
Make up your mind real fast
Since yesterday I would let you go
Are you happy if the answer is no?
There is certainly time to make it so, yeah
What's done is done, you need to set your ways
And that is you, you in your future days
Mistakes and slams are made by everyone
So, please accept what's done is done
You don't know what you are any more
Just know where you've been
It doesn't matter how it all was before, let the present begin
Big decision for a man in the daze to leave the haze, yeah
What's done is done, you need to set your ways
And that is you, you in your future days
Mistakes and slams are made by everyone
So, please accept what's done is done, what's done is done
Movement is a sign of life, keep moving forward, life
There is no going back from here in spite of all your fight
There's no point in blaming yourself for the wrongs you've done
The game that is really numb, no need to be on the run
What's done is done, you need to set your ways
And that is you, you in your future days
Mistakes and slams are made by everyone
So, please accept what's done is done
What's done is done, what's done is done
So, please accept what's done is done
What's done is done, what's done is done
So, please accept what's done is done
What's done is done
