

# However You Want It Said

## Beartooth

I keep pushing, for more pulling  
Finally grab the (road/rope (?)) just to let go  
I'm still searching, for more feeling  
Look inside myself to find a black hole I know I have issues  
But I don't need to hear it coming from you  
It's something that I work through?  
The beating of my heart's not stopping any time soon  
It's not stopping any time soon Well I'm sick of it, over it, however you want it said  
I'm telling it straight 'cause it might be the only chance I get  
Just shut up  
Just shut up  
Would you stop telling me who I am  
I'm sick of it, over it, however you want it said I want closure on this chapter  
Don't want to spend life looking out the window  
I'm outta patience, I'm done waiting  
Getting on my feet is what it comes to I know I have issues  
But I don't need to hear it coming from you  
It's something that I work through?  
The beating of my heart's not stopping any time soon  
It's not stopping any time soon Well I'm sick of it, over it, however you want it said  
I'm telling it straight 'cause it might be the only chance I get  
Just shut up  
Just shut up  
Would you stop telling me who I am  
I'm sick of it, over it, however you want it said I know I have issues  
I know I have issues  
I know I have issues  
But I don't need to hear it coming from you Well I'm sick of it, over it, however you want it said  
I'm telling it straight 'cause it might be the only chance I get  
Just shut up  
Just shut up  
Would you stop telling me who I am  
I'm sick of it, over it, however you want it said
