

# Perfect Love Affair

Anita Baker

There's a picture in my memory  
Of the days when we first met  
When solo became duet  
And the words you spoke compelled me  
Yes your touch it tranquilized  
These feelings I memorized  
It's a perfect love affair  
And so good to know  
When you need me I'll be there  
It's a perfect love affair  
And so good to know that you love me  
And you care, baby you care  
Now I welcome love's affliction  
Though its symptoms I deny  
Contention, we harmonize  
Yes a heart of ice was melting  
And the mountains they did move  
Baby you've nothing left to prove  
'Cause it's a perfect love affair  
And so good to know that you love me  
And you care

It's a perfect love affair  
And so good to know that you love me  
And you care  
When you look in my eyes  
My love won't be denied  
Oh my darling, yes, love me freely  
Help me stand here now  
Baby, now  
We got the perfect love affair  
And it's good to know  
When you need me, I'll be there  
Perfect love affair  
And it's good to know  
That you need me and you care  
We got the perfect love affair  
And it's good to know  
When you need me, I'll be there

Perfect love affair  
And it's good to know  
That you need me and you care
