

Jump Music

The Big Pink

Jump music, you play it
The silence has faded
Jump music, you play it
We'll stick together and we'll make it Out on the street
With all the people you meet
Fighting for your corner
Use anthems as our armor Jump music, drip taste it
No riffs are wasted
Jump music, my lover
Inhale sweet vapors Out on the street
With all the people you meet
Fighting for your corner
Use anthems as our armor I move in slow motion, move in slow motion
So fast, we move in slow motion
Slow motion, move in slow motion
Silence is torture Jump music, hold me in your arms
Forbidden love and secret charms
Jump music, a memory
Of love, a brief history Out on the street
With all the people you meet
Fighting for your corner
Use anthems as our armor Move in slow motion, move in slow motion
So fast, you move in slow motion
Slow motion, move in slow motion
Silence is torture Oh we, we won't die wandering
'Cause we, we dance to our own beat
Oh we, we won't die wandering
'Cause we, we dance to our own beat I move in slow motion, move in slow motion
So fast, you move in slow motion
Slow motion, move in slow motion
Silence is torture
