Call Me

Tricky

I'm calling you
I'm calling you now
And I won't wait
And I won't change now
Or rearrange
It might get strange now
It might get strange nowJust falling free
Just fall in me
And I'm your coffin
And I'm your coffin
For endless sleep now
For endless sleep nowLittle sunbeam
I hear you scream
I feel your heat now
I feel your heat now
Here's to one way sleep nowI hear trees scream
Ain't the people mean?
What do they mean?
It's time to sleep now
It's time to go nowI wait for you, I wait for you
I wait for you, I wait for you
I wait for youLittle sunbeam
I can hear you scream
I can feel your heat now
I can feel your heat now
Here's to one way sleep nowI hear trees scream
Ain't the people mean?
What do they mean?
It's time to sleep now
It's time to go nowI wait for you, I wait for you
I wait for you, I hate for you
I wait for you, I hate for you
I wait for you, I hate for youI wait for you, I hate for you
I wait for you, I hate for you
I wait for you, I hate for you
Hate for youI wait for you, I wait for you
I wait for you, I hate for you
I hate for you, hate for you
I hate for youI can feel your heat now

It's time to go now
