

Got to Get Better In a Little While

[Eric Clapton](#)

Don't you know what's wrong with me?
I'm seeing things I don't want to see
Sniffing things that ain't no good for me
I'm going down fast, won't you say a prayer for me? The sun's got to shine on my guitar someday
The revolution all across the land
Just watch out, you got to take a stand
Please don't hurt nobody, don't knock them down
Give them a helping hand to get up off the ground
The sun's got to shine on my guitar someday
