

# Damage Done

## The Great Decay

As the day is long  
As the damage done  
Rise  
Get in line get em pumped up high  
Get the hammers up high  
Get in line to get fucked up  
Get the hammers high  
Calm and cool corrupt  
As the day is long  
As the Damage done  
We wont give away anything weve won  
They love the way, they love the way

We let the water wash away  
Gonna wake shit up gonna break shit up  
Gonna tear this god damned world apart  
Dont doubt the hate thats inside of my heart  
Gonna break humanity just inspire of me  
Gaze into my eyes and youll find  
Is this punishment where did we go wrong  
Like a new conviction of a broken law  
This is life in the balance this is hate for a challenge  
This is killing us in the desert dust  
Were losing so much more
