# Nowhere To Lay Low

## Steep Canyon Rangers

Black smoke rising from my hometown, nowhere to run any more
Walking through the ashes at sundown, nowhere left to lay low
Biding our time so long now,.....*among the shadows
Waiting for a sign somehow, nowhere to run anymoreThere's nowhere to lay low,... there's nowhere to lay low,
there's nowhere to lay low,... there's nowhere to lay low,
There's nowhere to lay low,... there's nowhere to lay low
There's nowhere to run,..... and nowhere to lay low.Pieces of life scattered all around me, from another life on the go
Those departed gather 'round me, ready to take what there owed
When I look in his eyes, my brother will know
That I never left his side, nowhere to run anymore.
Chorus
Just one thing we're demanding, is another chance to be free
Never again will a peaceful man, live and die a refugee
Chorus
