Aciiid!

Jem

Move to the left, move to the right
Up, down, round now, hands to the side
Shake it to the left, shake it to the right
Let me see you move girl, dance all night
Clock all the men they stop and stare
Watch you move your body girl you dance on air
Do what you want, yeah my style is flash
If you don't like it you can kiss my assThat right
Get ready
A get ready
ACIIID!Jump to the left, jump to the right
Up, down, round now, head to the side
Circle to the left, circle to the right
Lose your inhibitions girl, dance all night
Dance like a pro, like a millionaire
Rich in your body coz you dare to dare
We're all unique, yeah my style is flash
If you don't like it you can * my assThat right
Get ready
A get ready
ACIIID!Shake it to the left, shake it to the right
Shake it to the left, shake it to the rightAciiid, aciiid, aciiid
