

# Slippin' Away

## Book of Reflections

Back in my old home town  
There were long summer days  
And there were leaves on the ground  
And it was too cold to play  
The city's colder than cold  
It's faceless and gray  
And all the dreams that you hold  
Keep slippin' away

Chorus:

Slippin' away, slippin' away  
Little by little, day by day  
Slippin' away, slippin' away  
Little by little and day by day  
I saw an old friend of mine

Asked if he was ok  
And he said everything's fine  
But his eyes filled with pain  
Yeah, he had nothin' to lose  
He had nothin' to say  
He feels worn out and used  
And slippin' away

Chorus

Better put up a fight  
Start right here today  
It's time you start right  
Before you just slip away

Chorus x 2
