

Real World

Skylar Grey

Welcome back to the real world
This ain't no virtual love
Welcome back to the real world
The kind of love you can touchWelcome back to the real world
Where I wanna be
And I know it's really love
My heart's on a screen that is broken
It's really love when you hold me
Oh I know the tension's for real
[?] isn't stranded and smokingSo real, so warm, I breathe
Breathe like I've never inhaled beforeWelcome back to the real world
This ain't no virtual love
Welcome back to the real world
The kind of love you can touchWelcome back to the real me
When we're all alone
Oh I know it's really us
No faces on a screen that is frozen
It's really us
So turn off the phone
Cause I know the connection is real
And I don't need a signal to show youHow I feel and more
I bleed, bleed like I've never been hurt beforeWelcome back to the real world
This ain't no virtual love
Welcome back to the real world
The kind of love you can touchIn the still of the night
Let the stars be the lightWelcome back to the real world
This ain't no virtual love
Welcome back to the real world
The kind of love you can touchWelcome back to the real world
