

# Chump Change

## Mr. Ruckuz

I stole a page from your book  
And a line from your page  
And flew into a lesbian rage  
Cursing mine and my own rotten luck  
Another nude descends a staircase to get fucked

A city scene, darkness falls  
Now skate hard down the gallery walls  
Explore those themes  
I hear your work is informed by queens  
Hey, so is mine now

There is a plague on  
There is a rat-tailed ensemble burying all of our hits in the sand  
The same sand a desert uses  
The same sand a desert uses

wipe that look from your face  
The world is that which is the case  
It is okay to be seen  
Don't dethrone the drama queen  
Just for putting everybody in their place

There is a plague on  
There is a rat-tailed ensemble burying all of our hits in the sand  
The same sand a desert uses  
The same sand a desert uses  
Now wipe that look from your face  
The world is that which is the case  
It is okay to be seen

Now wipe that look from your face  
The world is that which is the case  
It is okay to be seen  
Don't dethrone the drama queen  
Just for putting everybody in their place

Go, don't stay, just throw it all away.  
There is you and then there is your body.

Go, don't stay, just throw it all away.  
There is you and then there is your body.

Go, don't stay, just throw it all away.  
There is you and then there is your body.
