

# 11:59

## Blondie

Leaning in your corner like a candidate for wax  
Sidewalk social scientist  
Don't get no satisfaction from your cigarette  
It's 10 to 10, time is running out  
Lock up all your memories, get outta here  
You know that we can run Today can last another million years  
Today could be the end of me  
It's 11:59 and I want to stay alive Pumping like a fugitive in cover from the night  
Take it down the freeway like a bullet to the ocean  
Wait until the morning, take tomorrow by the hand  
Take it down the highway like a rocket to the ocean  
We can run Today can last another million years  
Today could be the end of me  
It's 11:59 and I want to stay alive Hanging on a frequency, burning like a fire  
Boy, you've got the motion down  
It's getting late, I'm tired and I've lost control  
Don't leave me here, time is running out  
Take me down the highway like a rocket to the ocean  
We can run Today can last another million years  
Today could be the end of me  
It's 11:59 and I want to stay alive
