Wish You Well

Bernard Fanning

Up so early feels so bright
I didn't get much sleep last night
Freight train rattled through my head
Whistle blowin' love is dead, is deadHeart attack by fear and doubt
Won't be long till the truth comes out
First impressions never last
Lovers bonds, they hold so fastRestless future burning bright
Past is holding on so tight
Never heard the warning bell
And I just wanna wish you well
I just wanna wish you wellWelcome swallows dip and swing
Take the cue from the slightest thing
Rolling fog into my room
Why'd you give up on me so soon, so soon?Restless future burning bright
Past is holding on so tight
Never heard the warning bell
And I just wanna wish you well
I just wanna wish you well
I just wanna wish you well
I just wanna wish you wellWhy'd you give up on me so soon?
Why'd you give up on me so soon?
I just wanna wish you well
I just wanna wish you well
