My Story

Addison Road

This is not another song about the reasons I am stressed
This is not melody to get the feelings off my chest
This is not a pop song written for the radio
These are just my thoughts and what I'm praying forChorus:
If this is my story, If this is my song
I wanna be a part of something beautiful
If this is my journey, Show me your road
Where ever you lead me in this world I wanna goThere's just too many times I only think of me
'Cause I get so consumed with my opportunities
But when my life's work brings me to the feet of God
I wanna hear him say I lived for his gloryChorus:
If this is my story, If this is my song
I wanna be a part of something beautiful
If this is my journey, Show me your road
Where ever you lead me in this world I wanna goColors paint the evening sky
The sun is shining giving light
Stars light up the atmosphere
But we're the reason God came hereWe are his story, we are his song
A beautiful melody that shows the world his love
When we're on this journey, when we're on this road
We are a part of the greatest story ever told
