Fever Dreams

Endless Blue

Sometimes
A fever makes me hot for you
But sometimes
A fever makes me sick
You hold me
You wake me up from my nightmare
But lately
I can't get out of it

Don't sit so close - I feel your breath
It's raising prickles on my neck
I try so hard to push away
I didn't mean you couldn't stay

Sometimes
An X can mean a kiss or two
But sometimes
An X just means delete
Well maybe
An O don't mean a thing to you
But lately
A hug is what I need

Please
Don't come closer
I don't need you
To be here beside me
But I can't hear your voice
What your thinking
Why you always will leave me
Alone, dear - I don't have a choice
It's just a dream

Sometimes
I need support to get me through
But sometimes
You need a looser grip
Maybe
I'm better off all by myself
But lately

I'd die without you with
Sometimes
A scream can mean a true delight
But sometimes
I scream in agony
You heal me
With loving words and bandages
But maybe
My wounds are just too deep

Please
Don't come closer
I don't need you
To be here beside me
But I can't hear your voice
What your thinking
Why you always will leave me
Alone, dear - I don't have a choice
Is it me?
Is it me?
It's just a dream
