

# Broken

## The Guess Who

Take the spell away and turn me back into a man  
An' give me credit, ya know I'm doing all I can  
Grab onto something that you think you can hold  
Grab onto something 'cause you're growing old

Yes, I've been broken too  
Yes, I've been broken too  
Just like you

So bring your soul to me and leave it here for just a while  
Show the end to me and see if I can fake a smile  
Grab onto something that you think you can hold  
Grab onto something 'cause you're growing old

Yes, I've been broken too  
Yes, I've been broken too  
Just like you

I don't have to fear, nobody else is here  
Don't have to see, I know what I want to be  
Don't have to make an explanation to you

It's true, the deeper the drilling goes  
Shows how much the best of the better knows  
That's why the bird with the broken wing never flew

And I've been broken too  
Just like you

Grab onto something that you think you can hold  
Grab onto something 'cause you're growing old

Yes, I've been broken too  
Yes, I've been broken too  
Just like you

So bring your soul to me

---
