

# Closer

## Bottlefly

If I had the ways to show you, we could fly away  
Like a satellite floating out in space  
If I had the means to reach you, I could celebrate,  
With a carnival dancing on parade dancing on parade I wanna get closer to you  
I wanna walk around inside your shoes  
I wanna get closer, closer that you've ever seen  
I wanna get inside you, closer to you  
I wanna be the blood inside your veins  
I wanna get closer, closer that you've ever seen  
I wanna be inside you. It seems you hide behind the make-up and turn it all around  
Like a circus clown, laughing at the crowd.  
It seems to me that when I call you a thousand times a day  
You just smash up the phone and throw my dreams away  
Throw my dreams away. Chorus repeat
