

Lose It

Austra

Don't wanna lose you, don't wanna lose.
Don't wanna lose you, don't wanna lose.
I never knew you, I never knew.
I never knew you, I never knew.
Your body's harmful, the very shape.
The cracks are deeper, on every plate. Don't wanna lose you, don't wanna lose.
Don't wanna lose you, don't wanna lose.
I get impatient, with every word
The more you ask me, the more I've heard.
This is a thirst that I never had,
I never bled for another man. Don't wanna lose you, don't wanna lose.
Don't wanna lose you, don't wanna lose.
My heart, it screams.
My heart screams, my face screams without an emotion.
In the darkness comes, another, another.
hold her by the thumbs, the other, the other.
In the darkness comes, another, another.
Hold her by the thumbs the other, the other.
