Children Of This Time

Europe

Children of this time
She spends one evening alone, she's on fire
Thinkin' of you in a dream
You come home and she says you're a liar
Asking where have you been
But she's the angel of your heart
There's not a thing that could set you apart
If nothing comes back till the end
If nothing goes wrong, she will always be your friend
You're a fool when you think that she's someone
Who would believe in a lie
You're a fool when you don't think she's someone
Whom you can make cry
'Cause you're the hero of her heart
There's not a thing that could set you apart
If nothing comes back till the end
If nothing goes wrong, you will always be her friend
You are the children of this time
You are the bread and the wine
You are companions till the end
You've got yourselves to defend
You are the children of this time
You are the bread and the wine
You are companions till the end
You've got yourselves to defend
Give her more, so much more and you'll find out
That it will come in return
Tell her more, so much more about your feelings
And she will make them burn
'Cause you're the children of today
There's not a thing that could stand in your way
If nothing comes back till the end
If nothing goes wrong, you will always be friends
You are the children of this time
You are the bread and the wine
You are companions till the end
You've got yourselves to defend
You are the children of this time
You are the bread and the wine

You are companions till the end
You've got yourselves to defend
She spends one evening alone, she's on fire
Thinkin' of you in a dream
You come home and she says you're a liar
Asking where have you been
But she's the angel of your heart
There's not a thing that could set you apart
If nothing comes back till the end
If nothing goes wrong, you will always be friends
You are the children of this time
You are the bread and the wine
You are companions till the end
You've got yourselves to defend
You are the children of this time
You are the bread and the wine
You are companions till the end
You've got yourselves to defend
Children of this time
