Last Display

Common Children

Threw it all away
When you made your last display
Saw your smile disappear
With the words we could not hearAnd we thought the sun would surface
And we prayed for this to change
But dreams they run astray
When you're starlight and I'm the dayI wish I could find my way to where
Starlight falls on me
I wish I could fly away to where
Starlight falls on meRemember all the times
Hope filled up our skies
An' nights would never end
(It burned our skin)
And starlight burned our skinI wish I could find my way to where
Starlight falls on me
I wish I could fly away to where
Starlight falls on meDon't throw it all away
Don't throw this all away now
(Starlight falls on me)You can always find a way
Don't throw this all away now
(Starlight falls on me)Don't throw it all away
Don't throw this all away now
(Starlight falls on me)You can always find a way
Don't throw this all away now
(Starlight falls on me)I can't keep you
I don't need to
(Starlight falls on me)I can't find you
I don't have to
(Starlight falls on me)I can't hear you
I don't see you
(Starlight falls on me)I feel
I can feel
