

# Dirt on the Grave

## Black Label Society

Ashes fly, ashes burn  
The sun is black, ain't no return  
Ashes fly, ashes burn  
Over and over, ain't no need to learn It's all dust on dust, it's all you and me  
Outdone completely, outplayed  
Just shovel some more dirt on the grave The choices you make and the choices that are  
When Hell is so close and Heaven so far  
Ashes fly, ashes burn  
Over and over, ain't no need to learn It's all dust on dust, it's all you and me  
Outdone completely, outplayed  
Just shovel some more dirt on the grave It's all dust on dust, it's all you and me  
Outdone completely, outplayed  
Just shovel some more dirt on the grave
