Down To Earth

Malachai

follow me down, tearing me down
straight down to earth
look at me now, pulling a crowd
falling face first
calling your name as i fall
where i'm landing i don't know
maybe i'll break down your wall
'cos you're the one who did this after all
no matter how i try to pick myself up
when i'm almost standing you come pulling me down
tearing me down
straight down to earth
look at me now, pulling a crowd
falling head first
calling your name as i fall
where i'm landing i don't know
maybe i'll break down your wall
'cos you're the one who did this after all
if i could say goodbye
if i could leave first thing
end up where no man has been
you'd still follow me down, tearing me down
straight down to earth
look at me now, pulling a crowd
falling head first
calling your name as i fall
where i'm landing i don't know
maybe i'll break down your wall
'cos you're the one who did this after all
no matter how i try to pick myself up
