

Wildfire (feat. Joel Ramsey)

Citipointe Live

A king a crown
Our hope Announced
And on the third
Death bowed down
God in flesh our victory
Death has got no hold on me No more sorrow
No more pain
Sickness healed in Jesus name
God in flesh our victory
Death has got no hold on me Woah
Your love ignites like wildfire wildfire
Its burning bright its wildfire wildfire
Though in the valley your light we will carry with us
woah

A king a crown
Our hope announced
And on the third
Death bowed down
God in flesh our victory
Death has got no hold on me
Your love ignites like wildfire wildfire
burning bright its wildfire wildfire
Though in the valley your light we will carry with us Woah
Your love ignites like wildfire wildfire
burning bright its wildfire wildfire
Though in the valley your light we will carry with us
woahx3

When we face a mountain
You move it
You promise secure you will do it
Your spirits alive and he's moving
Yeah he's moving X2
Your love ignites like wildfire wildfire
burning bright its wildfire wildfire
Though in the valley your light we will carry with us
Woah
