

# It Waits

## Metal Church

In your eyes a veiled disguise  
No surprise  
Now it waits for you Into the fray it went away  
Or so they say  
Still it waits for you Still inside the great divide  
Is growing wide  
There it waits for you Alone I pray for all who say  
They've lost their way  
And it waits for you And it waits for YOU!  
And it waits for YOU!  
And it waits for YOU!!!!!!!  
Solo In your eyes a veiled disguise  
No surprise  
Now it waits for you Into the fray it went away  
Or so they say  
Still it waits for you Out of the night, into the light of the dawn  
There's nobody here, all that you love is now gone Still inside the great divide  
Is growing wide  
There it waits for you Alone I pray for all who say  
They've lost their way  
And it waits for you Look out...Solo  
They wait for you  
They wait for you  
They wait for you  
They wait for you  
They wait for you... They wait for you
