

Engine

Isac Elliot

Oh my God!

You got your head in the clouds, never come down I love that you're a crazy ride
The way you let down your hair like you don't care you rock the staddie, you're mine one of a kind. I guess that
I put six day a track, my Jordan's they could run for miles to see you smile, and girl you got me going so fast
Cause a OOOOOOO Oh my God, girl I love this crazy life, and It's yooou yeah It's yooou, you keep my engine
running

and ooooo all those nights, you and me what a crazy ride.

And It's yooou yeah It's yooou, you keep my engine running.-----Disco time-----

You keep my engine running Oh my God!

This girl is all that I see now listen to me, oh yeah you got It. That's so hot, the way you dance on the street, you
take the lead, you rock this staddie world, you're mine one of a kind, I guess that I put six day a track, my

Jordan's they could run for miles to see you smile

And girl you got me going so fast and OOOOOO Oh my God

Girl I love this crazy life.

And It's yooou yeah It's you, you keep my engine running.

and OOOOOOAAAA all those nights

You and me what a crazy ride

and It's you yeah It's yooou, you keep my engine running.

-----Disco time-----

You keep my engine running
