

Last Days

Chevelle

Well it's my last night
Darwinian nation rules
She held the vastness close
And I untied this knot Glad I caught that witch
Glad I caught that witch
Caught it by the tail
Glad I caught that witch When it's your last choice drowned
By any new means these runes
She sews the rats eyes closed
Some call it fantasy Glad I caught that witch
Glad I caught that witch
Caught it by the tail
Glad I caught that witch A witch
Gotta get you a witch
Witch
Gotta get
Gotta get It's my last night [x4] Glad I caught that witch
Glad I caught that witch
Caught it by the tail
Glad I caught that witch No better [x3]
No better than this
No better [x3]
That I caught
No better [x3]
No better than this
No better [x2]
