One More Time

Jim Verraros

I always like it when
You hold me close and then
We stay that way through the night
The rain falls down on us
Sendin' chills up and down my spine
But we don't seem to mind
So kiss me, baby, just one more time
I just can't get enough, you're like a dream of mine
And touch me, baby, just one more time
So soft and gentle like, one more time
I can feel your breath on me
And your skin right next to mine
Please don't ever let this go
Can you turn off all the lights?
Come lay down right by my side
And, baby, just close your eyes
So kiss me, baby, just one more time
I just can't get enough, you're like a dream of mine
And touch me, baby, just one more time
So soft and gentle like, one more time
It's taken some time
But you're worth the wait
You know that I love you
This could be destiny, you and me
I always like it when
You whisper softly to me
You know you love me, too
Kiss me, baby, just one more time
I just can't get enough, you're like a dream of mine
And touch me, baby, just one more time
So soft and gentle like, one more time
Kiss me, baby, just one more time
I just can't get enough, you're like a dream of mine
And touch me, baby, just one more time
So soft and gentle like, one more time
One more time, one more time
