

She Loves to Hear the Music

Stephanie J. Block, Patrick Vaccariello & Various

Ive been listening quietly
Just waiting for my turn
When it comes to music
There aint nothing I can learn
Cuz everything I live and breathe
Is written on an album sleeve
I can tell you who is hot
Who will make it
And who will notCuz I love to hear the music
I've got every lyric down
I love to hear them say Ive got
The greatest ears in town
There at every studio
There aint a pop star I dont know
And sometimes they take me home
But I always wake up alone
Men that want to marry me they never satisfy
The inner rhythms that I hear are all that keep me high
So they turn around and go
And leave me by my radio
I didnt love them anyway no tlike the way I love the man who playI love to hear the music
I've got every lyric down
I love to hear them say Ive got
The greatest ears in town
Im there at every studio
The first to come the last to go
Sometimes they take me home
But I always wake up alone, alone, alone, alone!!!Thats MeLet me, let me, let me, let me, let me hear the music
Yeah!
I love to hear the music
I've got every lyric down
I love to hear them say Ive got
The greatest ears in town
I love to hear it
I love to hear the music
The music oh I love it!
Oh I love it!
