Milk It

Nirvana

I am my own parasite
I don't need a host to live
We feed off of each other
We can share our endorphinsDoll steak
Test meatLook on the bright side is suicide
Lost eyesight I'm on your side
Angel left wing, right wing, broken wing
Lack of iron and not sleepingI own my own pet virus
I get to pet and name her
Her milk is my shit
My shit it is her milkTest meat
Doll steakLook on the bright side is suicide
Lost eyesight I'm on your side
Angel left wing, right wing, broken wing
Lack of iron and not sleepingDoll steak
Test meatLook on the bright side is suicide
Lost eyesight I'm on your side
Angel left wing, right wing, broken wing
Lack of iron and not sleepingProtector of the kennel
Ectoplasma, ectoskeletal
Obituary birthday
Your scent is still here in my place of recovery
