

Bloodline

White Sea

Falling dominoes, add 'em up
I'm counting bodies naked in my bones
Never wanted to hurt nobody

I'm not a monster, it's in my bloodline
It's a sensation, I can't fight it
It's getting harder, baby not this time
It's a fixation and I can't fight it

If you leave me now that will be no doubt
The sins that you will count, high, high
Try to scream and shout, I can see it now
Too late to put it down, high, high
I know I'll love again, I know I'll love again
And when my love's loves again, I'll follow
I know I'll love again, I know I'll love again
And when my love's loves again, I'll follow

Life long criminals, lock me down
I can't help myself I'm never political
Let me drown, there's always someone else in

I'm not a monster, it's in my bloodline
It's a sensation and I can't fight it

If you leave me now that will be no doubt
The sins that you will count, high, high
Try to scream and shout, I can see it now
Too late to put it down, high, high
I know I'll love again, I know I'll love again
And when my love's loves again, I'll follow
I know I'll love again, I know I'll love again
And when my love's loves again, I'll follow

Never enough, where do I run? Always undone
Never enough, where do I run? Always undone
Never enough, where do I run? Always undone

If you leave me now that will be no doubt
The sins that you will count, high, high

Try to scream and shout, I can see it now
Too late to put it down, high, high
I know I'll love again, I know I'll love again
And when my love's loves again, I'll follow
I know I'll love again, I know I'll love again
And when my love's loves again, I'll follow
