Break The Silence

Killswitch Engage

As I live and breathe
I watch it, watch it all welter
We greet this with apathy
No longer
Consumed myself
We'll walk through each day
With no mind for captivation
Immoral decay
We must destroy and rebuild
We must destroy and rebuild
For the sake of ours
It starts with one with one
As I live and breathe
I watch it, watch it all welter
We greets this with apathy
No longer
If we can't break the silence
How can we survive?
Search inside yourself
And now that you're alive
We must break the silence
Now we are alive
Silence, no longer
With this world that knows us
The fate is in our hands
The battle has just begun
We are not defeated
If we can't break the silence
How can we survive?
Search inside yourself
And now that you're alive
We must break the silence
Now we are alive
Silence, no longer
With all that I am, I will use my voice
To set this revolution
It starts today and it starts with me
Silence, no longer
With all I am

I will let my voice
With all I am
It starts with me
Break the silence, break the silence
Break the silence, we are alive
Break the silence, break the silence
Break the silence, we are alive
