

If You Want Me To

[Joe Diffie](#)

Darlin', I'll pack up my clothes
Take my heart on down the road
I'll even make believe I don't love you
Lose my mind, go insane
Turn my face to the pourin' rain
There's nothin' I wouldn't do if you want me to
But I'd rather stay around and love you
And be the one to make your dreams come true
But if it takes good-bye to make you happy
Then I'll just walk away if you want me to
If there's no way to make it work
I'll find a way to hide the hurt
I'll do my best to do what's best for you
I'll just take your memory
And disappear quietly
Quit acting like a fool if you want me to
But I'd rather stay around and love you
And be the one to make your dreams come true
But if it takes good-bye to make you happy
Then I'll just walk away if you want me to
Ohh, if it takes good-bye to make you happy
Then I'll just walk away if you want me to
