

# Don't Shoot

## Chamillionaire

Come on, I know the government's working  
You ain't never seen a man bursting  
Do you really think that you're the only person  
That sees the...that you're searching?  
Can't flick the channels just surfing  
Cause I heard we're bout to stop murking  
I changed the channel to the news channel  
What the hell they talking bout twerking  
I'm American my folks African  
Mom say she bought the gold back again  
Y'all chasing yeys and Kardashians  
Not even see what's happening  
Police is knows for drug trafficking  
Put a package on ya and trafficking  
Your keys is know you key straps with them  
I'm like hide the beast we know about ya  
Molly twerk one show about ya  
Beast we know about ya  
Molly twerk one show ain't got ya  
Eating tight like you bought that life  
You bring that knife to a show with flocka  
Your pity yey it's just so improper  
Petty show with your effort locker  
So we buck up I'm gonna block her  
Your daddy will have to ask for a docket  
That's true! Youngin in the streets tryna move a brick  
You don't really care if you proof or spit  
Got the hammer on his hip feeling too legit  
On fire, they like it they copy  
And all they want is some Versace, Versace  
He's after that cream and he's only 16 Don't shoot!  
No need to tell me who's bopping  
Can't you see the drones in the sky?  
Like do you think that they're watching  
I really try to keep to myself  
Keep getting caught up in all the hate  
I hope the verses y'all made for Kendrick  
Bring the economy back to life  
Don't shoot! Really, that'd be great

Don't shoot! Really, that'd be great  
Don't shoot! Don't shoot! Don't shoot! Graduated at the homie packs  
Cause homey showed them how the package's right  
Ironically he's never grabbed the knife  
They'd be calling everybody rappers right?  
His family rich but he'd be acting like  
Wanna leave it all to lead a retched life  
You actin like you wanna sacrifice  
Your whole life that you could leave the rap behind?  
Impressing who? Does this even equal success to you?  
If it do, rest it boy, you are here to hear the intellectual  
See many people and many jeans  
Get plenty crimes that they'll never do  
Your favorite rapper ain't in the streets  
He at a nice hotel right by a festival  
Stop watching WCW your life is something like MMA  
See they complain about and they say  
But they snitching on themselves everyday  
Got you fools got snitching grams  
Got crime line what up face crook  
Posting picture from the trap show  
They hustle harder than a... Come on, can't you see the feds watching?  
Do you think that your color odds are the only think that they're popping?  
I really try to keep to myself  
Keep getting caught up in all the hate  
I hope the feds will come down your dough  
And... on your diamond life  
Don't shoot! Don't get blown away  
Don't shoot! Don't get blown away  
Don't shoot! Don't shoot! Don't shoot!  
Cause missiles only.... Your favorite trapper drops a CD that'll save ya  
Hope your favorite rapper isn't still on tour in Asia  
Hope your favorite actor turns into the Terminator  
Better high right now I stay hungry plus I got an appetite  
We had some skittles and a snapper right?  
The last one made me wanna snap tonight  
My angry rapper's what I'm acting like  
You know I really ain't the acting type  
I really like it if there was one to mine  
You'd be apologizing in the after life  
Cause I'm black or white is really whack or right  
The raps are right you're sounding so hypocritical  
I wouldn't take it if you know individual  
They try to tell me that he know he a criminal  
But I'm the one to tell him that I know he a general

Hard to say they can't stay on  
It's kinda hard to tell them just brace on  
Really feeling like you get prayed on  
So I think we need a liaison  
Y'all saw what happened to Treyvon  
And if we bomb and they bomb  
Who the hell are we to say they wrong  
Don't shoot! Mr. President we're all watching  
Can't you see we got army guns and...dropping  
I really try to keep to myself  
Keep getting caught up in all the hate  
You really think the new love for guns  
Is gonna raise the ones that they got tonight  
Don't shoot! Don't shoot! Don't shoot!  
Don't shoot! Don't shoot! Don't shoot!  
Cause missiles only say K-boom! K-boom!  
Nothing really giving me a new feeling  
Nothing really giving me a new feeling  
We don't need a down fix we just need a new ceiling  
Oh kill'em! Oh kill'em!  
Yeah I see the bullet didn't mean it  
Yeah I think the government  
Will try to stay the new villain  
The other day I hear a mother say  
She had dreamed that the president would take us top a world  
I heard somebody else say when it does happen  
Hopefully they'll put it out for world star
