

You Can't Stop This Love Between Us

Mario Biondi

I thank you love, my life is full of wonder
I finally found the light when I was under
I thank the Lord for sending me an angel
Bring alive the chapel bells
Monsieur, je vous aime beaucoup
Je voudrais vous revoir pour un rendez-vous
Marchez, toi et moi dans les rues de Paris
Main dans la main tu me dirais oui
You can't stop this love between us
We won't stop even if we must
You can't stop this love between us
We're flying through the heavens
I'll always show the way
You can't stop this love between us
We won't stop even if we must
You can't stop this love between us
We're flying through the heavens
I'll always show the way
Oooh... yeah
I thank you, love, you shine just like the summer
You are my sign, beaming through the thunder
I thank the stars for sending me an angel
Can you hear the wedding bells? (Baby)
Monsieur, je vous aime beaucoup
Je voudrais vous revoir pour un rendez-vous
Marchez, toi et moi dans les rues de Paris
Main dans la main tu me dirais oui
You can't stop this love between us
We won't stop even if we must
You can't stop this love between us
We're flying through the heavens
I'll always show the way
You can't stop this love between us
We won't stop even if we must
You can't stop this love between us
We're flying through the heavens
I'll always show the way
I'm gonna fish you if you wanna stop
I'm gonna beg you if you feel no love
Yes, I do believe in a love like ours
If you really want me, I've been waiting under stars
Oh, take me somewhere, I'll go anywhere
Your time is my status shine full of good intent
Oh, take me somewhere, I'll go anywhere
The time is right, time to love
To shake it shake it shake it shake it...Oooh...
You can't stop
You can't stop this love between us

We won't stop even if we must
You can't stop this love between us
We're flying through the heavens
I'll always show the way
You can't stop this love between us
We won't stop even if we must
You can't stop this love between us
We're flying through the heavens
I'll always show the way
