# Jealousy Hurts

## Dizmas

Hold on tight 'cause jealousy hurts
We've come so far but remain the same
We need something new to love with
'Cause our hearts are broken, we don't love like we shouldWe try, we've tried honey
To take love and make love pretty
The verdict is guilty honey
We all love good intentionsLet's not go back to what we regret
We never learned so I'll take the blame
We need something new to love with
'Cause our hearts are broken, we don't love like we shouldWe try, we've tried honey
To take love and make love pretty
The verdict is guilty honey
We all love good intentionsWe try, we've tried honey
To take love and make love pretty
The verdict is guilty honey
We all love good intentionsWe can feel the tension
To get to close too one another, oh, oh, oh
'Cause I've been drinking poison
And honey you've made the same mistake, oh, oh, oh
Hold on tight 'cause jealousy hurtsWe try, we've tried honey
To take love and make love pretty
The verdict is guilty honey
We all love good intentionsWe try, we've tried honey
To take love and make love pretty
The verdict is guilty honey
We all love good intentions
