

Black And Huge

Gwar

Go You know I'm totally flaccid, I'm just a limp, mega-prick
You know I'm looking for a stupid white chick Because I'm black and huge
Black and huge, black and huge
Black and huge, black and huge
All the women hate me in the porno booth But now I see you, your there on the ground
And now you know, yeah, I'm raising a mound
I'm gonna got you, make you erupt
If I could just get out of this cup Because I'm black and huge
Black and huge, black and huge
Black and huge, black and huge
All the women hate me in the porno booth
