

# Moonage Daydream

## David Bowie Karaoke

Come on strong girl, lay the heavy trick on me  
The church of man, love, is such a holy place to be  
    Make me baby, make me know you really care  
        Make me jump into the air  
    Keep your 'lectric eye on me babe  
        Put your ray gun to my head  
    Press your space face close to mine, love  
    Freak out in a moonage daydream, oh yeah!  
        Alright ah  
        Come on you?  
        Far out  
    Keep your mouth shut but listen to the world inside  
    Keep your head on but open up your eyes real wide  
    Keep the change strong, let the things you torn aside

    You messing any road to high  
    Keep your 'lectric eye on me babe  
        Put your ray gun to my head  
    Press your space face close to mine, love  
    Freak out in a moonage daydream, oh yeah!  
        Keep your 'lectric eye on me babe  
        Put your ray gun to my head  
    Press your space face close to mine, love  
    Freak out in a moonage daydream, oh yeah!  
        Take it out, take it out  
        Oh, oh  
        Ready
